OUR STORY

Founded in 1994 in the Silicon Valley, Pactech started by providing custom cables and wire harnesses for computer systems. As the rapid growth and evolution of the Internet, cloud computing, networking, and storage technologies over the last two decades, our business has become the leading cable solution provider for systems, data centers, buildings, and infrastructures.

Our mission is to deliver customers comprehensive cable offerings through innovative engineering, quality manufacturing, and supply chain efficiency. We serve a broad range of customers: cloud/service providers, high tech, manufacturing, transportation, utility, medical, and government. We have customers in North America, Asia Pacific, Europe, and Latin America.
